

Analyzing Privacy Policies and Legal Agreements of Bkash

Accessibility of Agreements

- Clear and easy-to-understand language.
- Agreements available via app, website, and customer service points.
- 24/7 Customer Support, agent access points, and call centers.
- Transparent communications regarding policy changes.

Compliance with Laws and Regulations

- Legal Compliance with Bangladesh Bank, NBR, and Financial Intelligence Unit (BFIU).
- Adherence to:
 - Data Protection
 - Consumer Rights
 - Anti-Money Laundering (AML) & Counter-Terrorist Financing (CTF) Measures
- Regulatory Reporting.
- Continuous Internal Audits and Monitoring.

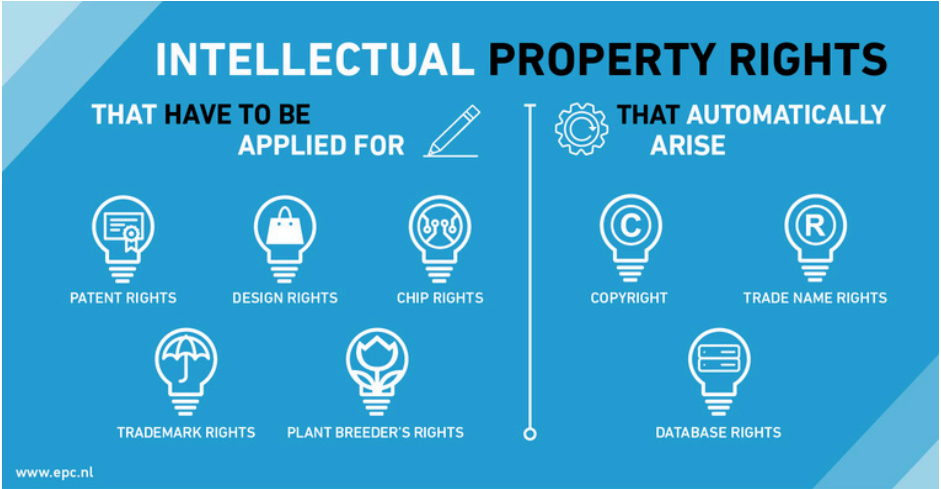

Privacy Compliance

- Alignment with Bangladesh's Digital Security Act 2018.
- Policies on personal data collection, storage, processing, usage, and sharing.
- Compliance with Bangladesh Bank's Mobile Financial Services (MFS) regulations.
- Gap analysis against national and international standards (e.g., GDPR influences).

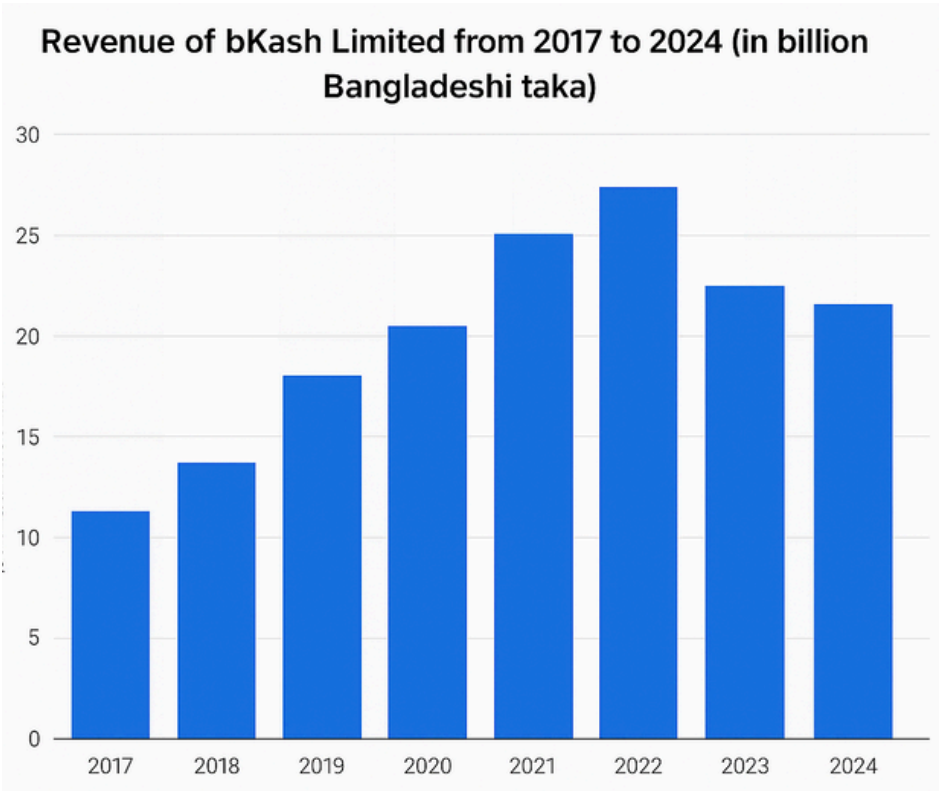

Intellectual Property and User Rights

- User consent for data usage required.
- Terms for user-generated data and third-party sharing through bKash partner services.
- Protection of user content under intellectual property laws of Bangladesh.
- Usage aligned with bKash's brand policies and legal frameworks.

Insights from Legal Consultation

- Financial records and transaction history may be audited for accuracy.
- Legal consultations occur based on regulatory needs or specific investigations.
- Customers may be contacted for clarifications during audits.

Termination, Transparency and Accessibility

- Forbidden Uses: Fraudulent transactions, money laundering, terrorist financing.
- bKash's reserved rights: Terminate or suspend accounts on suspicious activities.
- Advertisements or others' activities: Need proper authorization.
- User's responsibility: Maintain account confidentiality.
- Surveys and questionnaires: May be used for service improvement.
- Personally identifiable information: Strict privacy maintained.
- Illegal or suspicious activity: Immediate suspension and investigation.

Updates and Industry Standards

- Security aligned with Bangladesh Cyber Security Strategy 2021-2025.
- Use of two-factor authentication (2FA), PINs, biometric login features.
- Updates to meet evolving cybersecurity threats.
- Innovations like QR payments, remittance services, savings, and loan features.
